

Library.java

```
import java.util.ArrayList;

public class Library{

    ArrayList<Book> books = new ArrayList<>();

    public void addBook(Book book) {
        books.add (book);
    }

    public void displayBooks(){
        for (Book book: books)
        {
            System.out.println("ID= "+book.id) ;
            System.out.println("Title= "+book.title);
            System.out.println("Author= "+book.author);
            System.out.println();
        }
    }
}
```
